

LED Luminaires

Retrofit Commercial Downlight

- Field Adjustable CCT and Lumen Output
- ELV/Triac or 0-10V Dimmable with one driver
- Two Finish Options: White Reflector & Flange or Haze Reflector with White Flange
- Integral quick-connect emergency battery backup

Specifications

Description

Halco's Retrofit Commercial Downlights are a quick, easy, and convenient way to reinvent commercial lighting spaces. Color temperatures and light output can be chosen before or after installation with the flip of a switch. There is no need to worry about what type of dimming is currently being used in the space as the integral fixture driver for the CDL Series can dim using either 0-10V or ELV/Triac phase cut protocols. When emergency lighting is needed, the CDLEM family offers an aesthetically pleasing integral emergency battery backup solution. The robust spring clips and quick connect metal clad cables makes installation of the fixture and battery backup a breeze and the low profile combination test switch and charging indicator light eliminate large, unsightly ceiling and fixture mounted buttons. White and Haze colored reflectors, combined with all the other fixture options of the CDL family complete the look and make your commercial retrofit lighting projects a success.

Performance

- Selectable Color Temperatures
2700K, 3000K, 3500K, 4000K, 5000K
- 90+ CRI
- 120-277V, 50/60 Hz, ELV/Triac and 0-10V dimming driver
- 70 Lumen Maintenance
- L70 Lumen Maintenance > 50,000 hours
- 5 Year Limited Warranty

Construction

- Powder Coated Steel (White) or Spun Aluminum (Haze) Reflectors
- Diffused, Textured Lens
- Robust, Universal Spring Clips

Applications

- Office Parks
- Commercial Buildings
- Commercial Maintenance Facilities
- K-12 Schools, Colleges and Universities
- Big Box Retail Stores

Certifications

- Energy Star Downlights V1.0
- ETL Listed and Classified
- RoHS compliant
- IP65
- Wet Location
- FCC Compliant
- CA Title 24 Compliant

Retrofit Commercial Downlight

Ordering Logic:

Series	Fixture Size	Lumen Output	Color Temperature	Reflector/Flange Finish	Voltage
CDL = Retrofit Commercial Downlight CDLEM = Retrofit Commercial Downlight with Emergency Battery Backup	4 = 4" Round 6 = 6" Round 8 = 8" Round 10 = 10" Round	LS = Lumen Selectable 4 - 600/800/1000 6 - 1000/1800/2500 8 - 1800/2700/3500 10 - 2800/3500/4500	CS = Color Selectable, 2700K/3000K/ 3500K/4000K/5000K	HZWH = Haze Reflector, White Flange WH = White Reflector, White Flange	DDV = Dual Dimming Universal 120-277V 0-10V or 120V TRIAC/ELV

Trim Ordering Logic:

Series	Fixture Size	Option	Reflector/Flange Finish
CDL = Retrofit Commercial Downlight	4 = 4" 6 = 6" 8 = 8" 10 = 10"	REFL = Snap-on Reflector and Flange Trim	HZT = Haze Reflector, Haze Flange
