

LED COMMERCIAL DOWNLIGHTS

CANLESS RECESSED WITH POWER & CCT SELECT

SUGGESTED APPLICATIONS

- Commercial (Offices, conference rooms and hallways)
- Multi-family buildings (interior, bathrooms and exterior)
- Hospitality (Hotel lobbies, collaborative spaces and restaurants)
- Retail, Education, Hospitals and Airports

FEATURES

- Power & CCT field selectable switch to adjust between 3 wattages and 5 color temperatures
- Canless design - no housing needed for easy installation
- Available with Integrated or Remote Drivers in 4", 6", 8" and 10" sizes
- Deep regress design provides low glare and comfortable optical distribution
- Spring clips and quick-connects allow for hassle free installation
- Emergency battery backup option with remote mounted test switch
- Suitable for insulated and non-insulated applications

INPUT VOLTAGE: 120-277V

FREQUENCY: 50-60HZ

POWER FACTOR, THD %:
>0.9/20%

DIMMABLE: 0-10V,
DOWN TO 10%

EFFICACY: UP TO 85 LPW

MINIMUM CRI: 90

LIFETIME (L70): 50,000 HOURS

AMBIENT OPERATING
TEMPERATURE: -13°F TO 104°F

SUITABLE FOR CLOSET
APPLICATIONS: NO

LED COMMERCIAL DOWNLIGHTS

ACCESSORIES (SOLD SEPARATELY)

CDL-EMBB8

EMERGENCY BATTERY BACKUP WITH REMOTE TEST SWITCH

This inline EMBB is for use with all Topaz Commercial Canless Downlights with Internal or Remote Drivers. Can also be used for most Topaz lighting platforms (email Lighting@Southwire.com for details).

- 8W EMBB
- Provides 90-minute duration
- 120-277V input
- Battery capacity is greater than 60% from factory
- 12-month shelf life

Note: Be sure to follow your local fire and safety regulations regarding testing.

CDL-GR10

GOOF RINGS

This overlay solution is ideal for hiding oversized or miscut ceiling holes.

- **SIMPLE INSTALL** - The overlay easily slips between the ceiling and the commercial downlight trims. There is also at least one small nail hole in the goof ring to allow more permanent mounting.

CDL-DWP

NEW CONSTRUCTION PAN AND ACCESSORIES

- **CDL-DWP (New Construction/Drywall Pan)**: recommended for drywall ceilings and suspended drop ceilings. Designed to fit between standard joists from 12 to 24 inches; also fits standard bar channels in grid drop ceilings. The universal pan fits 3, 4, 6, 8 and 10-inch canless downlight fixtures.

CDL-HB

- **CDL-HB (Hanger Bars)**: recommended for new construction projects where joists are present. Extend from 12 to 24 inches. Hanger Bars are required for T-grid ceilings as they provide support for the tile by removing the weight of the fixture. Extend the Hanger Bars and secure to the channel bars.

CDL-J-BOX

- **CDL-J-BOX (Junction Box)**: recommended for integrated driver fixtures only (remote driver fixtures include j-box). Once assembled, the j-box attaches to the top of frame pan using metal tabs.

COLOR TRIM FINISHES

These smooth high-quality aluminum trims easily attach to the downlights by bending the metal tabs around the edges of the trims. Note: only compatible with the integrated driver fixtures.

BRUSHED NICKLE SMOOTH (BN-S)

MATTE BLACK SMOOTH (MB-S)

BRONZE SMOOTH (BZ-S)

MATTE SILVER SMOOTH (MS-S)
