Project:

Prepared By:

Because Lighting Speaks Volumes

Description

Indulge in this indoor hanging chandelier's contemporary design. Heavy and thin lines are balanced for a clean, crisp feel. Straight, striking rods, bars, and thin metal lines are paired or crossed to provide brilliant contrast. Encased in elegant rounded cylindrical etched white cased glass shades. Individually handspun by master glassblowers, glass is crafted layer by layer into a flawless multi-layered cylinder with a delightfully smooth touch. Enjoy phenomenal long-lasting color that will never fade from cleaning or sunlight. Glass color is always non-painted and 100% natural, inherent to the original sand pigment from which it was created. Illumination mechanism is sure to impress with its stunning, unique radiance. Light diffuses within multiple layers instead of simply filtering light through. The entire glass glows bright in perfect uniformity, emitting an ethereal, serene ambience and capturing an immaculate glow throughout the glass. Feel at ease with nickel's lasting quality and stunning appearance. High-quality nickel provides phenomenal durability and an attractive gleam. Hard surface provides top quality protection against scratches. Easy maintenance—simply clean and polish to achieve an even more lustrous shine. Outer lacquer finish provides an attractive sheen and additional layer of protection. Complements stainless-steel appliances, dining rooms, kitchens, restaurants, and many other indoor areas. Delight in this exquisite piece's sleek, angular look.
