SAFETY

For your safety, this fixture must be wired in accordance to local electrical codes and ordinances. All work should be done by a qualified electrician.

ASSEMBLY INSTRUCTIONS

1. Preparing for installation: disconnect electrical power before installing or servicing any part of this fixture.

2. Locate a suitable position to plate the fixture and open in accordance to the cut-hole dimensions (refer to hole cut table for appropriate size).

3. Run electrical wire from the switch (power supply) through the mounting hole-use nmd90 romex or bx cable.

⚠ WARNING

- Make certain power is off from the electrical panel before starting installation or attempting any maintenance. Indoor installation only.
- Risk of fire or electrical shock. Do not alter, relocate or remove wiring, junction box, power supply or any other electrical components.

- Suitable for Wet Locations.
- To prevent electrical shock, please wear rubber shoes and work gloves when installing the fixture.

INSTALLATION STEPS:

1. Turn off the power before installation. Remove the existing fixture if applicable. Determine the location and necessary hole cutout diameter using the supplied table and cut the ceiling hole with the listed approximate diameter, see Fig1.
