

Martina 1 Light Wall Sconce Black and Brushed Brass

The “Martina” Collection is so unique from a design stance. The glass is actually shaped as a bulb and the bottom glass holder is designed like the bottom of a vintage screw type bulb. The wiring has a “vintage” element since it is twisted the way Thomas Edison first introduced the bulb. The metal work is black while the glass holder is brass. The wall sconce is shown but there are many matching pieces in this collection such as a semi flush, island, chandeliers and more.
